Game Genres

Megan Kelly

Genre is a style or category of something, for example, movie genres, tv genres, the focus of this section is game genres. Some

Figure 1: Video Games by Year and Genre â€" Image Source

Game Genres are what we give to different games in order to group them together. Games with the same mechanics and the sa

Problems with specific game genres

Although genres make it easier to find similar games to the ones you like, there are some genres that have problematic characte

this can cause internet gaming disorder. Internet gaming disorder is when a person loses control over their gaming habits and pu

Personalities and Gender genre preferences

Research has shown a preference to particular game genres based on personality and gender. "Thus, it could be assumed that

For example, people with the personality type "extraversion" tend to prefer party, music and casual games the most. "For extrav

Difficulties with genre groupings

There are also some difficulties when it comes to grouping games into genres. There are so many genres and yet a lot of games

Conclusion

It is clear from the findings in this chapter that genres have a bigger impact on people than people would think. It can affect your
